

## Prayer for Guidance on AI Inspired by St. Clare:

O God, as we users, inventors, and governors  
of technology make decisions about AI,  
Place our minds before the mirror of eternity  
Place our souls in the brilliance of glory  
And place our hearts within Your divine  
substance

So that we may do only what is holy and right,  
What is in keeping with Your divine will for the  
thriving of humanity and all creation.

Keep us from the temptation to use AI for  
slander, revenge, or destruction.

Send us forward securely, joyfully, and swiftly  
On the path of prudent happiness,  
In the pursuit of that perfection to which You  
have called us.

Amen.

*(Prayer excerpted in part from St. Clare's Second  
and Third Letters to Bl. Agnes of Prague)*
